"Hechts' Greater Stores."

It was just as we told you Sunday-everybody was waiting for Hechts' Clearance Sale.

- sales," or the "- sales" about town didn't budge them an inch. They knew Hechts' legitimate clearing sale was about to start and they waited for it, knowing well that the values would be extraordinary.

The crowded store yesterday and up to the present writing today evidences our assertions. Everybody most who came in said this was the busiest store in town.

It's a great "trick" of stores generally to attempt to force buying at stated periods, with the old, worn-out excuse of a "Clearing Sale," a "Reduction Sale," and this and that. Keen buyers have noticed that prices are as much as ever, and the keen buyers of this city are counted by the thousands. The wonder of the whole thing is that these same shrewd merchants are too blind to see that the trick has lost its power. And so the frauds continue-few of them flourish, because Hechts' legitimate reductions are held up for comparison, and those who make comparisons invariably come here.

Hechts' methods are honest-Hechts' bargains are genuine, and the few told of each day in the newspapers are not "baits," but hints of what may be found in the store.

TRADING FAIRLY ACTIVE

Stocks on Exchange Firm After an Irregular Opening.

Granger Shares Make a Recovery From Yesterday's Closing Prices. Industrials Steady, But Not Remarkable for Activity-Fair Satisfaction Felt at the Crop Report.

New York, July 11.-Several conflicting influences in the morning's situation combined to produce a somewhat irregular stock market this morning. A good effect followed the declaration of the extra dividend on Louisville and Nashville, while the remarkable statement of earnings made by the St. Paul Company was operative in the same way. On the other hand the London market was again depressed, con-sols declining one-half point further, and it was feared that the money market would continue to work close during the day. The showing made in the Government crop report was accounted fairly sat

ment crop report was accounted fairly satisfactory particularly in regard to the outlook for the spring wheat crop.

Trading was fairly active at the opening
and after the initial irregularity the market developed a firmer tone. Manhattan
Rallway was particularly strong and the
granger shares showed pronounced recoverles from yesterday's final prices. New
York Central and Pennsylvania were also
in good request. The industrial quarter
was not particularly active, but in the
main was steady. Sugar Refining, Steel was not particularly active, but in the main was steady. Sugar Refining, Steel and Wire, and Tennessee Coal and Iron were the active features.

New York Stock Sarket. Corrected daily by W. B. Hibbs & Co., members of the New York Exchange, 1419 F Street.

Open. High. Low. 2:15

The crop report, considered by nearly everybody a bullish argument, more excellent railway earnings, and the increased dividend declared by Louisville and Nash-ville, steadled the stock market this morning despite the anxiety on every hand regarding the money situation in New York. The opening was at about the level of last night's close, and during the early or last night's close, and during the carry hours of the day prices did not recede, and in some cases showed small advances. Later, under the lead of St. Paul, decided strength was shown. The outlook is doubtful in the extreme, as far as the immediate market is concerned. It cannot be doubted that the continued remarkable earnings of St. Paul and the other fine statements that come out from week to week are making converts to the belief that railway shares will sell much higher than the present level, ultimately, and even in the not very far distant future. This is the view held by the most careful been pointed out in this column during the past few weeks, there are many other seemingly unanswerable arguments for higher prices. The immediate market, however, is likely to be more influenced by the technical condition of the New York money situation than by the best of general prosperity. And it cannot be doubted that this situation has most unpleasant features at the moment.

613 F Street N. W.

New York, July 11.-The United States transport Crook, Captain Walcott, arrived here yesterday from Havana with ten cabin passengers, forty-nine teamsters, and forty-two discharged soldiers, civilian employes, and others, as well as 400 mules. All on board are well except Eugene Smith, a discharged soldier, who broke his leg on July 7. The transport is held to await the usual five days' period of quarantine. GRASSHOPPER PLAGUE FEARED.

The Grain Crop of the West in Dan-

The Grain Crop of the West in Danger of Invasion.

The crops of the West are menaced with a grasshopper invasion. The pest has thus far done no particular damage, but in the Western States they are reported in sufficient numbers to be considered dangerous. Prof. Lawrence Brunner, the entomologist of the Nebraska State University, has issued a note of warning to the farmers, in which he says that the migratory grasshopper has made his appearance in the State in numberous places, and that the probabilities are that they will soon become troublesome. Prof. Brunner warns the farmers against this plague that will destroy their grain crop, and the "American Journal of Health," warns the people against drinking inferior beer, because it will be injurious to their health. The "American Journal of Health," in its has issue, recommends Heurich's beer as the beer that contains qualities that are beneficial to the health, because Heurich's beers are brewed from the best malt and hops and the method for brewing makes its beers especially adapted for the health. You will also think Heurich's is the only beer before the case is half empty, which you will replenish by ordering another from the Arlington Bottling Company.
